Let's review!

Learning Outcome

Accurately use information about people's jobs and places of work in communicative situations.

Ask your partner:

- Did you miss your home the last time you went on holidays?
- What did you miss the most?
- Is there something you always need to bring with you when you travel?

Can Do Statements

- I can make and respond to requests.
- I can talk about common health problems.
- I can talk or report about actions, events or people.
- I can say what I was doing when something else happened.

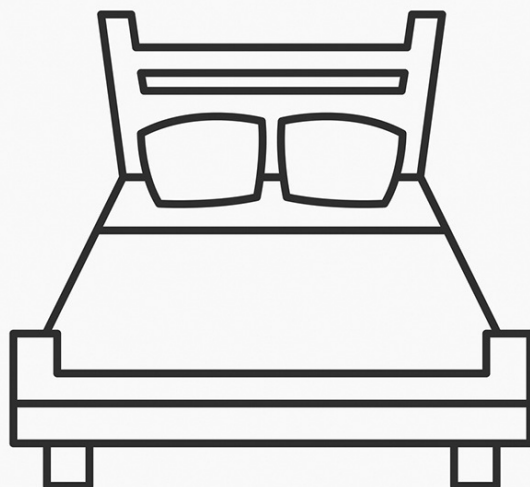

Let's Explore!

Sally is trying to **get over*** her jet lag. Perfect time to write a blog!

* When you "get over" a problem, you recover from it.

Instructions: Read the text aloud.

It's good to be home! Hotel beds are nice, but my bed is the nicest. I missed my comforter!

Yesterday I talked to my mum about my adventures in Egypt while she was making coffee. She liked the mementos from my trip. I'm glad the airport handlers were careful with my suitcase! I told my mum about Vanessa's injury at the Grand Canyon. Vanessa stepped into a hole while she was reading a map! She should be more careful next time!

I am so sleep-deprived! I was counting sheep until 3 a.m. when I finally closed my eyes. I woke up this morning with a bad stomach ache and an inflamed throat. My mum says that I may be airsick. That's so unlucky!

I have a question for you guys. Could you tell me if there is some medication I could take? What can I do to deal with this horrible jet lag?

Let's Practice!

The doctor will see you now. What seems to be the problem?

Instructions: Read the text. Check off the correct box in the table. There is one answer per question.
